Commissioning a wedding sculpture or cake top is a very personal and individual stage for each of my clients. It is therefore best discussed with myself to determine a budget to work to. An average 8-inch to 9-inch tall bridal couple complete with a beautiful glass presentation case will be around £380. Prices start from £200.

Designing and handcrafting the piece all takes time and patience and this is a large part of the costs. The more detail and work in the piece the more the cost will rise. A lot of love, care and attention to minor detail, applicable and personal to each couple are what makes each sculpture a totally unique piece of art.

Each sculpture is signed and numbered by myself the artist.
